Subject: USS Lead Data Sharing Agreement

Colleagues,

EPA is working on its databases and subscription services which include potential personally identifiable information. While the database management plan is under development and the databases have not been launched yet, EPA would like to have Data-Sharing agreements in place which would allow appropriate access to information once the databases become available.

I have attached a data-sharing agreement for signature. Please have someone with the appropriate authority sign it on behalf of your agency and send a .pdf of the your signed agreement to prout.susan@epa.gov. If you have any questions about this agreement, please contact Susan directly at the email above or by phone at (312) 353-1029.

Sincerely,

Steven P. Kaiser
